PHILIPP PLEIN
CASA

Bold Spirit

Philipp Plein trasferisce l'audacia delle sue passerelle direttamente su grandi superfici architettoniche. L'incontro tra la nobiltà del marmo naturale e decori ricchi, audaci e stratificati dà vita a un contrasto di forte impatto visivo, dove materia e grafica si esaltano a vicenda. Con questa collezione, Philipp Plein ridefinisce il concetto stesso di rivestimento: la lastra in ceramica non è più un semplice sfondo, ma diventa il fulcro dell'ambiente, una vera e propria opera d'arte capace di definire lo spazio.
Pensata per il segmento ultra-luxury — dalle ville private agli attici di Dubai e Miami, fino ai boutique hotel più esclusivi — la collezione esprime una visione dell'interior design che comunica immediatamente carattere, prestigio e un'estetica senza compromessi.

Philipp Plein brings the bold spirit of its runway collections to large-scale architectural surfaces. The fusion of noble natural marble with rich, daring, layered graphics creates a striking visual contrast, where material and design amplify one another.
With this collection, Philipp Plein redefines the very concept of surface cladding: the marble slab is no longer a neutral backdrop, but the focal point of the space—a true work of art that shapes the entire interior.
Created for the ultra-luxury market—from private villas and penthouses in Dubai and Miami to the world's most exclusive boutique hotels—the collection embodies an interior design vision that conveys character, prestige, and an uncompromising aesthetic.

Philipp Plein

PHILIPP PLEIN

Philipp Plein incontra Nuovocorso Big Slabs: il linguaggio rock-luxury del Fashion entra nella materia ceramica più evoluta del Made in Italy. Due universi si incontrano: da una parte Philipp Plein, designer tedesco e creatore di un lifestyle brand globale fondato su collezioni audaci, show spettacolari e un'estetica protagonista; dall'altra Nuovocorso, azienda italiana specializzata nelle grandi lastre in gres porcellanato 160×320 cm e 198x340 new jumbo size.

Da questa collaborazione nasce una nuova interpretazione della superficie ceramica: le Big Slabs Nuovocorso diventano il supporto creativo dell'universo Plein, unendo tecnologia, ricerca materica e identità visiva attraverso le collezioni Jungle, Colosseo e Animalier.

Philipp Plein meets Nuovocorso Big Slabs: the rock-luxury language of fashion enters the most advanced ceramic surfaces of Made in Italy. Two worlds come together: on one side, Philipp Plein, the German designer and creator of a global lifestyle brand built on bold collections, spectacular shows, and a maximalist aesthetic; on the other, Nuovocorso, an Italian company specialized in large-format porcelain stoneware slabs, 160×320 cm and beyond.

This collaboration gives rise to a new interpretation of ceramic surfaces: Nuovocorso Big Slabs become the creative canvas for Philipp Plein's universe, combining technology, material research, and visual identity through the Jungle, Colosseo, and Animalier collections.

NUOVOCORSO
meets

Quando la superficie diventa espressione di stile. Grazie alla tecnologia Continua+ e a elevate performance tecniche, le Big Slabs Nuovocorso reinterpretano la forza di marmi, pietre e materiali preziosi con superfici pensate per l'architettura contemporanea. Texture decise e grafiche iconiche trasformano pavimenti, rivestimenti, top cucina e arredi in elementi progettuali di forte carattere, adatti a residenze private, hospitality e ambienti contract di alta gamma.
Non semplici rivestimenti, ma superfici capaci di raccontare una visione: il DNA provocatorio di Philipp Plein incontra l'eccellenza produttiva della ceramica italiana.

When surfaces become a statement of style. Thanks to Continua+ technology and outstanding technical performance, Nuovocorso Big Slabs reinterpret the strength of marble, stone, and precious materials through surfaces designed for contemporary architecture. Bold textures and iconic graphics transform floors, wall coverings, kitchen countertops, and furnishings into distinctive design elements, suitable for private residences, hospitality, and high-end contract projects.
Not simply coverings, but surfaces that express a vision: Philipp Plein's provocative DNA meets the excellence of Italian ceramic craftsmanship.

Animalier

Sotto la superficie lucida della lastra, il marmo custodisce lo stesso istinto che anima il manto del leopardo e quello nero assoluto della pantera. **Animalier** trasforma la ferocia grafica di **Philipp Plein** in materia: le venature di marmi preziosi si intrecciano a inserti Swarovski, mentre le greche in oro e platino disegnano un perimetro di disciplina attorno al caos della natura.

Nero Marquinia, Verde Alpi, Arabescato Viola, Taj Mahal: quattro marmi, quattro temperamenti, uniti dalla stessa audacia che li rende protagonisti assoluti dello spazio. Non rivestimento, ma presenza; le lastre raccontano un ambiente dove moda e architettura smettono di essere linguaggi separati e diventano un'unica pelle preziosa, pronta a vestire ville, hotel e residenze che non vogliono passare inosservate.

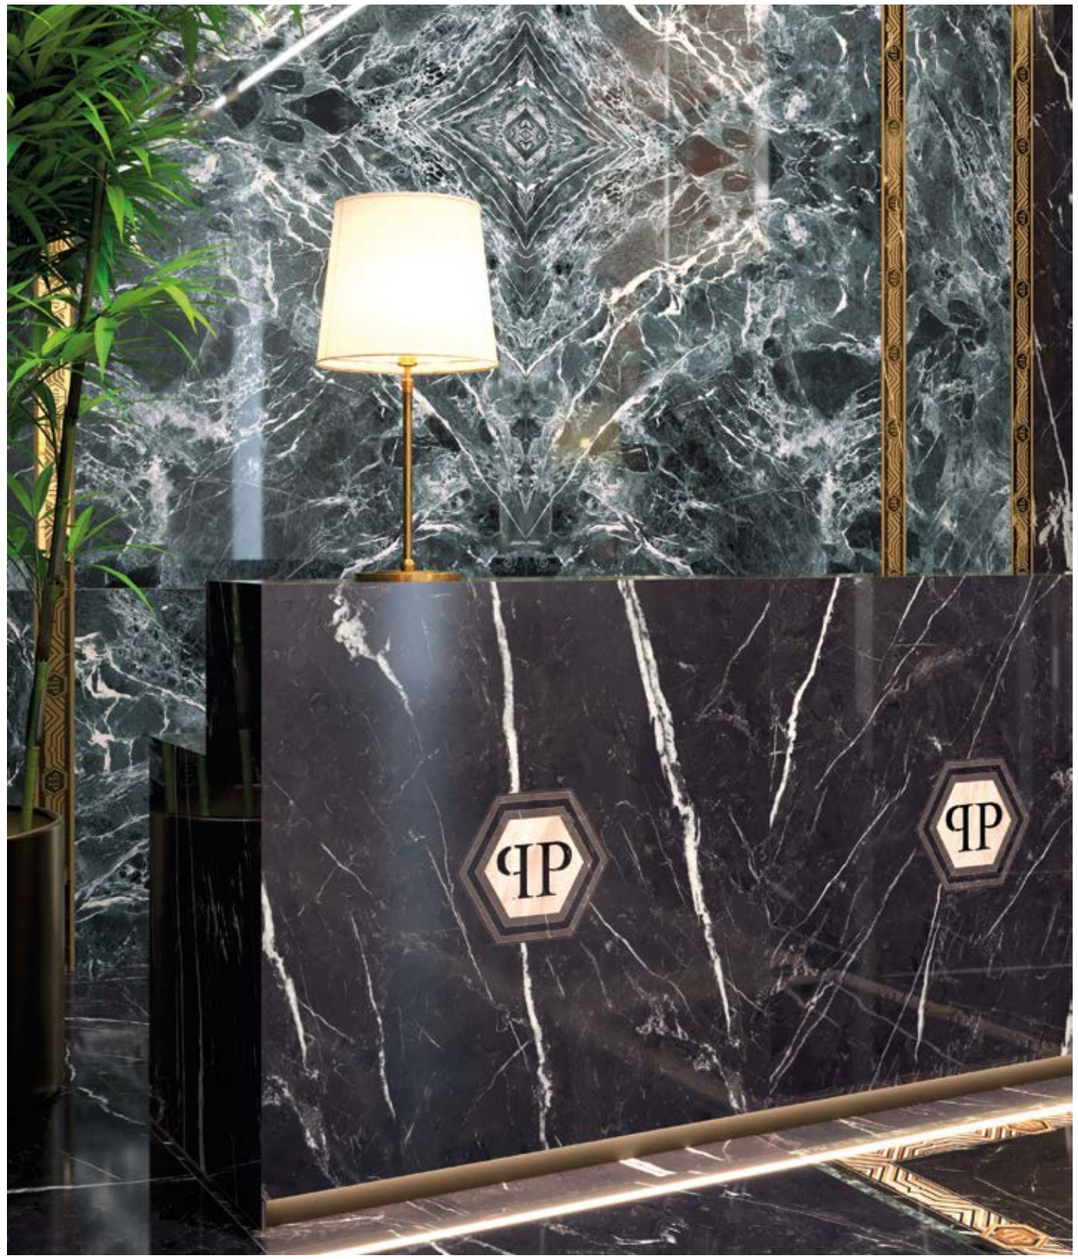

Beneath the glossy surface of the slab, marble holds the same instinct that animates a leopard's coat and a panther's absolute black. **Animalier** turns **Philipp Plein's** graphic ferocity into matter: the veining of precious marbles interlaces with Swarovski inlays, while gold and platinum Greek-key borders trace a line of discipline around natural chaos.

Nero Marquinia, Verde Alpi, Arabescato Viola, Taj Mahal: four marbles, four temperaments, united by the same audacity that makes them the absolute protagonists of any space. Not a covering, but a presence; these slabs narrate an environment where fashion and architecture stop being separate languages and become a single precious skin — ready to dress villas, hotels and residences that refuse to go unnoticed.

Colosseo

C'è una luce, a Roma, che al tramonto trasforma la pietra in oro antico. **Colosseo** nasce da questa suggestione e dalla passione che **Philipp Plein** nutre per l'Italia, presenza costante in ogni sua creazione. Quattro tonalità delicate, di sensibilità profondamente italiana, restituiscono a pareti e pavimenti la stessa monumentalità silenziosa dell'architettura romana.
Il **Travertino Romano** diventa protagonista elegante, il disegno a **Cassettone** rilegge la tradizione architettonica capitolina con un linguaggio contemporaneo.
Una collezione per chi cerca ambienti sofisticati, senza tempo, capaci di raccontare l'Italia più autentica.

There is a light in Rome that, at sunset, turns stone into ancient gold. **Colosseo** is born from that suggestion and from **Philipp Plein's** passion for Italy, a constant presence in every one of his creations. Four delicate tones, of profoundly Italian sensibility, give walls and floors the same silent monumentality as Roman architecture.
Roman Travertine becomes the elegant protagonist; the **Cassettone** pattern rereads Rome's architectural tradition in a contemporary language.
A collection for those seeking sophisticated, timeless spaces that speak the most authentic Italy.

Jungle

La passione di Philipp Plein per il mondo **Animale** si esprime in una natura calda, densa, quasi tropicale. Le grandi venature della pietra **Silver Root** diventano rami, radici, tracce di un tempo remoto. La **tecnologia 5D Tech** scolpisce la superficie fino a renderla tridimensionale: la luce vi scivola sopra come attraverso il fogliame di una foresta. Qui la decorazione non è applicata, è parte della superficie ceramica. Il pannello Diorama, con le sue tre lastre incorniciate dal cartiglio dello stilista, trasforma la parete in una scenografia botanica di rara profondità. Le quattro scene iconiche, **Leopard, Panther, Peacock, Butterfly,** punteggiano lo spazio di piccoli racconti selvaggi sempre in bilico tra natura e alta decorazione.

Philipp Plein's passion for the **Animal** world expresses itself here in a warm, dense, almost tropical nature. The grand veining of **Silver Root** stone becomes branches, roots, traces of a distant time. **5D Tech technology** sculpts the surface until it becomes three dimensional: light slides across it as though filtering through the foliage of a forest. Here decoration isn't applied, it is part of the ceramic surface itself. The Diorama panel, its three slabs framed by the designer's cartouche, turns the wall into a botanical scenography of rare depth. The four iconic scenes, **Leopard, Panther, Peacock, Butterfly,** punctuate the space with small wild stories, forever balanced between nature and high decoration.
